

Eco PRO

SUSTAINABLE PROTEINS

ECO PRO is a high protein raw material. It is prepared and formulated for finfish.

ECO PRO contains high cholesterol, high natural pigment and is full of antioxidant. It has a high palatability and provides a fantastic taste of the sea not found in other protein sources. ECO PRO is made from plant protein, shrimp head and tails, and marine worms. By using often discarded parts of the shrimp the product is environmental friendly and contributes to a sustainable food supply chain. ECO PRO is highly digestible.

Analysis

NUTRIENT	VALUE	NUTRIENT	VALUE
Moisture (%)	8.0	Fibre (%)	2.0
Protein (%)	50.0	Calcium (%)	1.0
Fat (%)	6.0	Phosphorus (%)	1.0
Ash (%)	8.0	Sodium (%)	7.0

Ingredients

Ca.50% shrimp by-product and Ca.50% soybean meal.

Light orange powder. Colour may vary, but this has no effect on performance.

Instructions for use

Optimal protein for aquatic animal, according to the body weight.

Apply for local formulation by adequate method.

Shelf life

2 years

Storage conditions

Store in ambient, dry condition. Maximum storage temperature for recommended shelf life is 25°C.

Packaging

25 kg bag
1,000 kg bag
