

Squid PRO

LOLIGO OPALESCENS

FEED FOR SHRIMP

Squid PRO is an excellent maturation feed, full of high value nutrient and fatty acids. Squid PRO is used for maturation directly or can be mixed with other shrimp broodstock feeds. Squid PRO is excellent in combination with Semi Moist PRO.

Harvested from regulated fisheries off the Pacific West Coast to ensure biosecurity and provide a predictable supply. It is made with pure giant squid (*Loligo opalescens*) and every step has been made in order to preserve the freshness, palatability and digestibility.

Analysis

NUTRIENT	VALUE	NUTRIENT	VALUE
Moisture (%)	78	Ash (%)	2
Protein (%)	17	Calories (/100g)	89.1
Fat (%)	2.5		

Ingredients

100% Squid (*Loligo opalescens*)

Instruction for use

Don't freeze after defrosting
Animal feed – Not for human consumption

Shelf-life

2 years

Storage condition

Store in -18 °C

Packaging

10 kg block frozen

Country of Origin

USA
